With Mobile

Vehicle Pre-Checks

Gear up with the app DAKO drive— Mobile Vehicle Pre-Checks by DAKO

Vehicle pre-checks before any journey are not only required by law for trucks and delivery vehicles; they also contribute to a safer and less stressful drive by reducing the risk of breakdowns.

In our app, DAKO drive, these routine procedures can be carried out completely digitally – mobile, universal, intuitive and reliable.

Our Solution

- ✓ Complete documentation, incl. photo
- ✓ Integrated with the app DAKO drive
- ✓ Easy to use
- ✓ Adaptable checklist according to vehicle type
- ✓ Available for all vehicles (trucks, trailers, vans, cars)
- ✓ Vehicle components (headlights, chassis etc.) are coherently itemised
- ✓ Automatic upload of reports to our platform DAKO Fleet
- ✓ Compliance with DGUV Principle 314-002 (Inspection of vehicles by driving personnel)

Benefits for Companies

- › Continuous digital documentation of all vehicle pre-checks
- › Relief from legal obligations—automatic upload of reports to DAKO Fleet
- › Actively avoid errors and inaccuracies—digital over paper
- › Hardly any training is required due to a user-friendly interface

Benefits for Drivers

- › Safeguarding with neat documentation of vehicle pre-checks
- › Time-saving: Fast execution without paperwork
- › User-friendly interface and intuitive menu navigation
- › Reduced workload: Automatic transmission of vehicle pre-checks as well as fault reports

How to Use the Mobile Vehicle Pre-Check

Install the app DAKO drive on your drivers' mobile devices
